Progress Scores Based on Prior Attainment:

Reading	-3.1
Maths	-2.9
Writing	-1.3

A score of 0 means pupils in this school, on average, do about as well at key stage 2 as those with similar prior attainment nationally. A negative score will not necessarily mean a school is below the floor. Schools whose scores are below -5 are below the national average and in the bottom 10%.

Average Point Scores:

Reading	102
Maths	102
EGPS	103

Although not directly comparable to the old national curriculum levels the DfE have indicated that the national standard (100 scale score) will roughly equate to an old Level 4B.
